# Correction to: Restrained eating in Lebanese adolescents: scale validation and correlates

Tracy Boulos Nakhoul<sup>1</sup>, Anthony Mina<sup>1</sup>, Michel Soufia<sup>1†</sup>, Sahar Obeid<sup>2,3,4\*†</sup> and Souheil Hallit<sup>1,2\*†</sup>

## Correction to: *BMC Pediatr* 21, 257 (2021)

<https://doi.org/10.1186/s12887-021-02728-7>

Following publication of the original article [1], the authors flagged that they had based their analysis on the whole sample collected for their study, but that some participants should have been excluded from the sample:  $N = 614$  had been given, while it should be  $N = 555$ .

To correct this, the authors have redone their analysis on the corrected sample of  $N = 555$  and the original article has been corrected according to the new analysis; please see the additional file provided in this correction for the details of the corrections that have been made (the yellow highlighting indicates the updates).

The authors thank you for reading this correction and apologize for any inconvenience caused.
